Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1, 3, 4 & 6 are rejected under 35 U.S.C. 102(e) as being anticipated by Alten, (U.S. Pat # 5,635,978).

Considering amended claims 1 & 4, the claimed receiver for receiving broadcast signals multiplexed with program guide information including information on broadcast times of the programs, comprising:

Art Unit: 2611

'receiving means for receiving multiplexed signals' is met by the interactive cable converter box 200, see Fig. 12 & col. 14, lines 5-30. The claimed multiplexing is broad enough to read on transmitting the EPG in the VBI of a TV signal, col. 14, lines 24-26.

'separation means for separating the EPG information in the multiplexed signals from the broadcast signals is necessarily included, since the EPG data may be transmitted in the VBI of a broadcast signal.

'production means for producing a retrieval table consisting of a plurality of time slots each having a predetermined length of time independent of broadcast time', reads on the discussion in Alten of the plurality of time slots, such as 30, 60, 90 and/or 120 minutes, (col. 12, lines 4-24).

'allocating each program to at least one of the plurality of time slots based on the broadcast time of the program, wherein the programs have varying lengths of time and the allocation is performed for a selected program with reference to a relative time within a selected time slot', is still broad enough to read on the disclosure in Alten that the broadcast programs have varying lengths and are located in the appropriate time slot, based upon their time of broadcast and actual length of broadcast; see Fig. 5a; 5b; 7a; col. 8, lines 60-67 & col. 12, lines 5-25.

Considering claims 3 & 6, the claimed:

'storage means for storing separated EPG data' reads on memory 210 for storing downloaded EPG information, col. 14, lines 5-7.

Art Unit: 2611

'input means for inputting a broadcast time to be retrieved; executing means for executing the retrieval; and processing means for reading out the EPG information of a retrieved program from the storage means and displaying on display device' reads on the discussion of Alten of displaying EPG information of a plurality of programs, col. 14, lines 5-59 & Fig. 5a; Fig. 5b.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2 & 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Alten, in view of Eick, (U.S. Pat # 5,812,124).

Considering claim 2, Alten does not teach displaying the EPG according to the program genre. However, Eick teaches sorting/filtering programs according to genre or category, (Fig. 4; Fig. 7; Fig. 8; col. 7, lines 25-65). It would have been obvious to display the EPG according to program genre, at least for the desirable advantage of making program selection more efficient, as taught by Eick, col. 2, lines 45-67 & col. 3, lines 5-20.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
